

Waiting On The Wind

Written by Scott Thiessen

VERSE

Hours in the rain
Gone but I stay
Cos they said
Someone always comes
And the sky clears
But I won't run

PRE-CHORUS

I'm waiting on the wind to save
me
But I know it's not enough
Before my senses fall
Take me
Then leave me with your touch

CHORUS

I know the sun will fall
I know my friends will cry
I know that everybody goes
And everybody tries
But I don't know the shades
Can't see through the blinds
Oh I sure could use somebody
Who's asking "where am I?"
Where am I?

VERSE

Have I lost my sight
Cos I don't recognize
These eyes
Oh where am I
It's a long way down
Are my feet
Touching ground

PRE-CHORUS

I'm waiting on the wind to save
me
But I know it's not enough
Before my senses fall
Take me
Then leave me with your touch

CHORUS

I know the sun will fall
I know my friends will cry
I know that everybody goes
And everybody tries
But I don't know the shades
Can't see through the blinds
Oh I sure could use somebody
(Asking "where am I?")

POST-CHORUS

I'm waiting on the wind
Waiting in the sun
Standing somewhere clear
So I can hear the whistle run
I'm waiting on the wind
Waiting for someone
Did they mean it'd get worse
When they said
"You're only young"

PRE-CHORUS

I'm waiting on the wind to save
me
(Save me)
And I hope that it's enough
But I know it's not enough

CHORUS

I know the sun will fall
I know my friends will cry
I know that everybody goes
And everybody tries
But I don't know the shades
Can't see through the blinds
Oh I sure could use somebody
Who's asking "where am I?"
Where am I?

OUTRO

I'm waiting on the wind
(Save me)
(Save me)
I'm waiting on the wind
(Save me)
(Take me)

Killing Me

Written by Scott Thiessen

VERSE

You look so pretty in your past
 But I know from how you told
 me
 It gets hard to look back
 But you
 Reach for me
 Any chance you get
 Find your way
 To my grave
 To the part of me
 Playing hide and seek

BRIDGE

Where did the time go
 Scared of letting you go
 So soft like a willow
 That I know
 Growing near the water
 Where all I once saw were
 Tadpoles through the tall burs

PRE-CHORUS

And now I'm
 Chained to your heart
 Exile the guards
 Baby you can read my bluff
 It'll never never be enough
 I'm not phased
 By their fortunes
 What we got's
 Far from foreign
 Nobody could offer me enough
 Enough

CHORUS

Cos you feel like summertime
 Coming down the slide
 Face on the concrete
 But the joke is sweet
 Feeling like I'm in danger I
 When I trace your eyes
 I feel your heartbeat
 And it's killing me
 Killing
 Killing
 Killing me

VERSE

I'm falling
 In my mind
 It's all on the line
 Could you tell me
 How much longer
 Til' you uncover
 My crimes
 But you
 Reach for me
 And say it'll be alright
 What do you see
 Say you're killing me

BRIDGE

Where did the time go
 Scared of letting you go
 So soft like a willow
 That I know
 Growing near the water
 Where all I once saw were
 Tadpoles through the tall burs

PRE-CHORUS

And now I'm
 Chained to your heart
 Exile the guards
 Baby you can read my bluff
 It'll never never be enough
 I'm not phased
 By their fortunes
 What we got's
 Far from foreign
 Nobody could offer me enough
 Enough

CHORUS

Cos you feel like summertime
 Coming down the slide
 Face on the concrete
 But the joke is sweet
 Feeling like I'm in danger I
 When I trace your eyes
 I feel your heartbeat
 And it's killing
 Cos you feel like summertime
 Coming down the slide
 Face on the concrete
 But the joke is sweet
 Feeling like I'm in danger I
 When I trace your eyes
 I feel your heartbeat
 And it's killing
 Killing
 Killing
 Killing me
 Killing me
 You're killing
 Oh
 You're killing me

POST-CHORUS

Sweet like honey
 Tastes like cinnamon
 Is it sunny
 Or are your eyes just glistening
 You look so funny
 With that that smile you're
 hiding
 Oh please
 You're killing me

Don't Go Too Far

Written by Scott Thiessen

VERSE

Don't move on too fast
I'm still memorizing your tracks
I sink where you stand
Do you know what I can
Do you measure by your name

PRE-CHORUS

The skies are changing
everyday
My "will you wait?"
Gets lost in its metamorphosis
And all I have is this
A couple problems
And a pair of shoes that don't
fit

CHORUS

But I wanna change
With the wind
Moving with
The clouds before they
disappear again
Take me with and then
Maybe I'll be someone better
to contend

POST-CHORUS

Don't go too far without me
Don't go too far without me
(Don't)

VERSE

Don't leave me in the dark
I'm more than rusted spare
parts
Slow wins some races
But I promise I'm chasing
To out hide the fame

PRE-CHORUS

The skies are changing
everyday
My "will you wait?"
Gets lost in its metamorphosis
And all I have is this
A couple problems
And a pair of shoes that don't
fit

CHORUS

But I wanna change
With the wind
Moving with
The clouds before they
disappear again
Take me with and then
Maybe I'll be someone better
to contend

POST-CHORUS

Don't go too far without me
Don't go too far without me

BRIDGE

Am I out of your view
When you're looking for me
Do you see through the trees
Am I out of the woods
Is something in the air
Or was it just a breeze
Am I out of your view
When you're looking for me
Do you see through the trees
Am I out of the woods
Is something in the air
Or was it just a breeze

CHORUS

But I wanna change
With the wind
Moving with
The clouds before they
disappear again
Take me with and then
Maybe I'll be someone better
to contend

POST-CHORUS

Don't go too far without me
Don't go too far without me
Don't go too far without me
Don't go too far without me
Without me

Willows Wallow

(Breathe)

Written by Scott Thiessen

VERSE

Screaming at the top of my
lungs
When I was young
When I knew everything
Before I knew anything
But I gave it all up
And I'd give it again
For the peace that came
When the silence began
Oh how I ran

PRE-CHORUS

And I'm still running
Down those halls
Covered in red
Up on the walls
With every step
The end recalls
I'm still running
I'm still running

CHORUS

Just
Breathe
It's not very far
And there's burning stars
That can't stand where you are
Just
Breathe
Let the cold wind flush
Just a common brush
You can't see the rush yet
You can't see the rush yet

VERSE

Where did the man go
Who ruled these games
Left behind the flames
Consumed with embers this
fire dealt
Oh how I fell

PRE-CHORUS

And I'm still falling
Down those holes
To spinning rooms
With no control
In their hands
Like dice they roll
I'm still falling
I'm still falling

CHORUS

Just
Breathe
It's not very far
And there's burning stars
That can't stand where you are
Just
Breathe
Let the cold wind flush
Just a common brush
You can't see the rush

BRIDGE

You know
It won't
just work like magic
(Work like magic)
You know
It takes
A little bit of practice
(a little bit of practice)
Follow
The trail to the places
That sound like home
Oh you know
Oh you know
What you know

CHORUS

Just
Breathe
It's not very far
And there's burning stars
That can't stand where you are
Just
Breathe
Let the cold wind flush
Just a common brush
You can't see the rush yet
It's your eyes and ears
Lies and fears
And they got more
And they're keeping score
But your eyes and ears
Known you for years
On the ground floor
Of this great war
So just breathe
Just
Breathe

Yesterday

Written by Scott Thiessen

VERSE

Yesterday
Is screaming
Everyone just wants to be
famous
And I
Don't know what to say
I just wanna feel the
Bumps on my skin raise
In the rain

PRE-CHORUS

With a lover by my side that I
know
I know wants my
Loving by his side too
Whatever way the wind blows
We'll pack up and follow
Oh look at all the flowers
bloom

CHORUS

I wanna give you the world
But I can't find the entrance
This walking is endless
I
Think that I carry
Too much doubt
Listening
And it all comes flashing back
The things I could
And what I can't
Catch my breath
I'm rambling
And I see you standing there
And I swear
I wanna scream
But I can't
Ahhh

VERSE

Yesterday is
Stealing my vision
Acting up with no volition
And there's
Strangers everywhere I look
Woah
And they're
Pulling me
Effortlessly
Across the
Fallen ash
Of a life that could be
Where do I look
Where do I look

BRIDGE

I can't take it all
I can see the cracks start to
break
I just need to take a step back
And I'll be okay
I'll be okay
I'll be okay
I'll be okay

PRE-CHORUS

With a lover by my side that I
know
I know wants my
Loving by his side too
We're talking how the times
show
And all the time we borrowed
And no one says "too soon"

CHORUS

(And I)
I wanna give you the world
But I can't find the entrance
This walking is endless
I
Think that I carry
Too much doubt
Listening
And it all comes flashing back
The things I could
And what I can't
Catch my breath
I'm rambling
And I see you standing there
And I swear
I wanna scream
But I can't
Ahhh

OUTRO

Yesterday
(It'll be okay)
It'll be okay
It'll be okay
It'll be okay
Yesterday
Yesterday

With You

Written by Scott Thiessen

VERSE

I come to you
 With a heavy heart
 And you walk us past it
 Like you never saw the mark
 And I'll follow where you go
 That's something that you
 know
 There's something bout what
 you know

PRE-CHORUS

Like breathing in again
 For the first time after diving
 down
 Forgot about what I never
 found
 You do that to me
 Every time
 Won't look around
 When I'm with you
 You're my ground

CHORUS

Clarity
 Is what you give to me
 A
 Chance to be
 Just be
 Just be
 With you
 With you

VERSE

I'm smelling roses
 Counting homes with
 Enough windows in em
 In em
 How many stars
 Searching for constellations
 You release my frustrations

PRE-CHORUS

Like breathing in again
 For the first time after diving
 down
 Forgot about what I never
 found
 You do that to me
 Every time
 Won't look around
 When I'm with you
 You're my ground
 You're my ground

CHORUS

Clarity
 (Clarity oh clarity)
 Is what you give to me
 (Clarity oh clarity)
 A
 Chance to be
 (Oh clarity)
 Just be
 Just be
 (With you)
 Just be
 With you
 With you
 With you
 With you

BRIDGE

With you in the dark
 Getting lost
 Lose the mark
 On my mind
 In the eye
 Of the storm
 With you under rain
 In the deep and untamed
 Oh my love you
 Keep me warm

CHORUS

Clarity
 (Warm)
 Clarity
 (Warm)
 Clarity
 (Clarity oh clarity)
 Is what you give to me
 (Clarity oh clarity)
 A
 Chance to be
 (Just be)
 (Oh clarity)
 Just be
 (With you)
 (With you)
 (With you)
 (With you)
 Oh with you
 With you

Beside the Sea

Written by Scott Thiessen

VERSE

Funny how sand
Can linger through time
Taking me back
Like it's all by design
Lone on the road
It's walking me home
Falling right through my fingers
Cos it's not mine

PRE-CHORUS

Quick flash
It's a whiplash
No it won't last
Hold fast
If you look back
It's not half bad

CHORUS

Stay with me
Til' it snows on the beach
Til' it's up to our knees
Summers breaking
At the seams
Waves are crashing
In between
If you're looking
You'll find me
Beside the sea

VERSE

Lining my pockets
My reach is exhausted
Can't leave if I wanted
This place leaves me haunted
Treasure in many
Little things get heavy
(It's the little things)
I'm losing my mind
And no one can stop it

PRE-CHORUS

Quick flash
It's a whiplash
No it won't last
Hold fast
If you look back
It's not half bad

CHORUS

Stay with me
Til' it snows on the beach
Til' it's up to our knees
Summers breaking
At the seams
Waves are crashing
In between
If you're looking
You'll find me
Beside the
Summers breaking
At the seams
Waves are crashing
In between
If you're looking
You'll find me
Beside the sea
With salt wind in my hair
And my feet standing bare
Was I really there
Or is the roar of the sea
Finding me in my dreams
Oh I wish I could be
Beside the sea

OUTRO

Beside the sea
With salt wind in my hair
Beside the sea
And my feet standing bare
Beside the sea
Was I really there
Beside the sea
